Eq Primo Anavar Cycle - Primo Anavar Test Prop

What you said JD on *About the best thing to use to change your physique and really keep anything off cycle is primobolan. I would run primo, anavar, and a low dose of deca for 15 wks* This sounds good. I was thinking of a similar thing but with Eq over Primo (* As I am not 100% sure I can get real products of Primo)

Anavar + Primobolan Stack Very safe mix for definition, popular for preps in competitive fitness, women's bodybuilding and men's-physique. Competitive athletes respect this stack for a low incidence of side effects and very high anabolic impact. Though with a high anabolic index of (400%), Oxandrolone is weak solo. In combination with Primobolan drugs have severe […]

My previous cycles was Test E 500mg 10weeks, Test E 500mg and Tbol first 6 weeks and Test E 500mg and Anavar 50mg last 6 weeks off the cycle. 39 years old, 5'8", 203 lbs, aprox 14% BF. Summer cycle. Goal is to gain quality muscle. I've ran both test and var before so the only compound I don't have any experience with yet is primo.

Primo Ev 100 S08

By Feb. I should be close to 8-10%. I thought this cycle would help bring out the vascularity and muscle definition while the EQ would help me add a little lean mass. I thought about adding some Winny or Anavar, but I want to be sure to stay clear of anything that is too harsh on causing acne. Sep 14, 2004.
