15. valliworks. 9 years ago. @waldonova67. I'm wondering if that was even Omega Labs at all. just cuz I know they have a product called 4-test, but it's at 250mg/ml. Hmm.. yeah, that could've been either an older product, or more likely, a fake. You can check out Omega Labs product site and it looks totally legit.

Buy Omega Meds Anadrol Steroid profile for Anadrol (Oxymethelone). Intermediate users are known for using a range of 50 - 100mg per day, and although approaching risky limits, advanced users as high as 150mg per day. Generally, however, most users whether beginner, intermediate, or advanced, should seldom require more than 50mg per day due.
