As someone who's tried a lot of different CBD products over the years, I can say with confidence that the gummies I bought in Summerville, SC are among the best I've ever tried. The store I visited had a wide variety of products, including gummies from a number of different brands. The staff was really helpful in guiding me through the options, and ultimately I ended up purchasing a bottle of gummies that I've been using regularly for the past few weeks. What's great about these gummies is not only the quality of the CBD itself, but also the taste and texture of the product. They're fruity and flavorful, and the consistency is just right - not too tough or too soft. As someone who's had trouble getting consistent results with other types of CBD products, I can say that these gummies have definitely made a noticeable difference in my anxiety levels and overall sense of well-being. The store itself was also a great experience - the staff was friendly and knowledgeable, and they took the time to answer all of my questions and make sure I was comfortable with my purchase. They also had a great selection of other CBD products, from oils to capsules to topicals, so I'm excited to go back and try out some different options. Overall, I would highly recommend this store to anyone looking for high-quality CBD products. The gummies in particular are really outstanding, and I'm excited to continue using them as part of my wellness routine.
