Consider Melanotan injections for sale that will let you benefit from sunless tanning at its best. At TruTan, we carry Melanotan 2 (MT2) vials, all-in-one kits and nasal sprays that all share one mechanism of action. Once used, they trigger melanogenesis, a process associated with the increased production of melanin.

Melanotan II reduces the serum levels of cholesterol and insulin, increases cholesterol metabolism and fat catabolism. PACKAGING & DOSAGE. Melanotan-2 comes in the form of vials containing 10 mg of lyophilized (freeze-dried) powder. Powder for injection is prepared with water solution for subcutaneous intramuscular, or intravenous administration. [view it](#)
