

500mg Test E 200 Mg Deca - Deca Durabolin Y Trembolona

as soldidspine stated, if it is your first time with Deca, 200mg with 500mg test will work for you. I tried Deca @ 200mg + 500 Test E this past winter for my bulker, and it was a great cycle! Gained 15lbs after 6 weeks. 08-Apr-2007, 07:10 PM #7. advanced-stealth.

- Dubolin 100 mg
- Nandrolone Phenylpropionate
- Injectable Steroids
- 1 vial
- Lyka Labs

Deca isn't known for that. Depending on the ester of the Test that's in there, it could cause some pip, but it's possible the Deca might actually smooth that out. You would also need to think ahead and determine if those ratios of Test and Deca will work for you if you decide to scale up the dosage since you're locked in with a blend.

- DECAN 300 300 mg
- Nandrolone Decanoate
- Injectable Steroids
- 1 vial
- Para Pharma

Testosterone Undecanoate Injection Formulation

2x wk 12 cc 200 mg test cyp, 2x wk 500 mg hcg, along with 1mg 3x wk anastrozole/rimidex for the last 4 years, plus the 125 mg 1xwk deca from my Dr. (I'm 50, 6'1, 180#) Thanks for everything you do for all of us.

IMO 400 test + 200 deca will give better gains than 600mg test. Deca is not something that needs to be run at a high dose and around 600mg seems to be the effective ceiling, with more not giving much more in the way of progress. #3. kimora25 and RS86 like this. Jan 24, 2015.
