

PRAY FOR YOUR CHILDREN

Children are like a permanent whiteboard piece, and whatever you teach them will have a significant impact on how they conduct their life. Children are similar to flowers in that they will bloom in the future if you treat them well, while they will wither away if you treat them badly.

The goal of setting aside a day to "[love children](#)" is to safeguard them from society's cruelties while simultaneously making them feel special. The abuse of children, whether it occurs at home, school, or in another setting, damages their personality. Every year, between 10 and 15 Lac youngsters are raped.

Everyday news came about the knowledge that a minor is raped by some *Dogs in the shape of Humans*. How can a child grow well in those societies where they face many ill-mannered Acts? [No one](#) can imagine the feelings of a child when they experienced any kind of torture.

Does anyone want that their Children face this kind of situation ever? NO ONE and that's the fact that we want to secure our loved children but never took steps to protect them from cruel societies. The negligence of parents plays a major role in the destruction of the personalities of their children.
