# East West Conference on Mathematics Education

**Warsaw, Poland • September 22 - 23, 2018**

**University of Social Sciences and Humanities**

and

**Academic Educational and Social Center AKCES Foundation**

are pleased to invite you to the international

**East West Conference on Mathematics Education EWCOME 2018**

**Dear Sir or Madam!**

We invite you for the International Conference on Mathematics Education with the aim of integrating different areas of Mathematics education. We want to bring together researchers and practitioners from different parts of the world and different background and interests. This conference give you the opportunity to present your research and experience to a broad community and also to discuss the interesting for you topics in small groups.

The conference theme is Breaking Down Barriers. The barriers are between: mathematics and science, various subjects in education, diverse cultures, and scientists and teachers; barriers between mathematics and the general public; replacing the image of a cold and austere subject with mathematics of warm, human, inviting and challenging beauty. Our goal is to break down barriers by bringing together different approaches to education from different parts of the world.

The Conference is designed to break down these barriers through (1) the creation of innovative methods in mathematics education aligned with other subjects, (2) the application of new methodologies from science and art education, and (3) the application of the best teaching methods from around the world: East and West.

Participants:

- scientists engaged in various aspects of education,
- teachers interested in innovative approach to education,
- students interested in the topic of the conference,
- employers interested in raising the quality of mathematical education of employees-to-be

Scope:

- mathematics as a part of STEAM (Science, Technology, Engineering, Art, Mathematics),
- math education in conjunction with other parts of STEAM,
- psychological aspects of education,
- multimedia in education,
- creating awareness of indispensability of mathematics,
- individualization of educational processes,
- methods of education of talented students,
- distance education,

- effectiveness of math education.

The conference included:

- plenary lectures
- scientific sessions
- practical sessions

Conference place:

University of Social Sciences and Humanities, Poland, Warsaw, Chodakowska 19/31 street

Languages:

- English
- Polish

Important dates:

- until **June 30th, 2018** registration
- **July 15<sup>th</sup>, 2018** deadline for submission of paper abstracts and workshop summaries
- until **July 30 th, 2018** proposal acceptance notification
- **July 30, 2018** Deadline for submission of articles for publication in a special issue of Psychological Studies - (articles must fulfill the formal requirements magazines, publication after a positive review)
