*Average and up to savings percentages are based on all discounted prescriptions that were run through the WellRx program in 2020. Discount percentages represent savings provided off of pharmacies' retail prices for consumers who do not have a discount program and pay cash. Savings calculated based on the pharmacy's cash price. On average, fourteen percent of RxSaver prescription purchases receive savings of 85% or more. The discount coupons offered by RxSaver are intended for out-of-pocket paying consumers and may not be used with commercial health plans or any federal or state funded health care program, such.

A few weeks ago I printed out one of your cards and used it on one of my medications because my co-pay went up and to my surprise instead of paying a $45.00 co-pay through my insurance, I ended up paying only $17.00 by just running it through the discount card! Now I will be comparing prices!" Steve learn the facts here now
