Humatropo 72 Iu Lilly or human growth hormones (hGH or HGH) is a peptide hormone that stimulates growth, cell regeneration, and reproduction, production of IGF-1, free fatty acids and increases the concentration of glucose. Mostly it is being used to treat children's growth disorders and adult growth hormone deficiency. The pics I posted are consistent with the real Humatropo in terms of print quality, layout and style. However the stuff I got doesn't have the QR code or the black border. I've seen pics of what's claimed to be real Lilly (black square/QR code) with the same expiry as the stuff I posted with this black border design. #indian #stayhome #mumbai #delhi #uttarparadesh #assam #kolkata #bangalore

Humatrope must be kept refrigerated (36° to 46°F [2° to 8°C]) before and after it is mixed. Do not freeze. Once Humatrope has been mixed and is in liquid form, cartridges must be used within 28 days and vials must be used within 14 days. Throw away any unused Humatrope in a cartridge after 28 days and in a vial after 14 days.

Study data suggests it affects 18 million men over the age of 20 in the United States. It affects men of all ages but becomes increasingly prevalent with age.

Humatrope 72 UI (24 mg) from Ely Lilly. The active ingredient in the drug was originally only intended for medical use. To this day the remedy applies very successfully in medicine. In sports the preparations with growth hormone (somatropin) over time become more widespread, especially since it has proved their high efficiency as doping agents. #quote #quotes #quoteoftheday #quotesaboutlife #frases
