Followed up with the regular pct. 10 week cycle 500 test 400. — you should not be treated with testosterone if you have prostate cancer, male breast cancer, a serious heart condition. [investigate this site](#)

Trenbolone 200 manufactured by Dragon Pharma is an anabolic steroid with enanthate ester which has an effect five times that of testosterone and is free from side effects like gynecomastia, water-retention. Trenbolone 200 raises the levels of IGF-1 and it powerfully interacts with the receptors of muscle growth preventing glucocorticoid hormones. Tren and Stan are powerful anabolics that don't aromatize, and the Exemestane should keep the bloat down from the testosterone. Take 1.5 ml of GP Test Enanth 250 mixed with 1 ml of GP Tren Enanth 200 on day 1, and another injection of the same mixture 2-3 days later and continue this for 10 weeks. Most people find it easiest to stick to a.
