Will steroids help me lose body fat?

While valid testosterone replacement therapy may promote weight loss in obese men, anabolic steroid **misuse is not a recommended weight loss strategy**. Excessive muscle mass may be difficult to maintain in the long term and unused muscles tend to turn into fat over time.

How do you lose weight when on steroids?

How to Control Weight Gain on Prednisone

1. Reduce sodium intake. Minimize canned and processed foods, soy sauce, cold cuts, chips, and other salty snacks, because high-sodium foods contribute to water retention.
2. Choose low-calorie sources of calcium.
3. Consume more potassium.
4. Opt for healthy fats.
5. Stick with a schedule.
