We have a HUGE sale planned for this week! Don't forget to sign up for our newsletter in order to be informed of all upcoming sales & product releases. Buy ACE-083 online. It was hypothesized that ACE-031 would act as a decoy receptor for the catabolic proteins, specifically myostatin, and bind to them in an effort to keep them away from muscle fibers. Numerous studies have been conducted to determine if ACE-031 is an effective treatment for children who have Duchenne Muscular Dystrophy (DMD).
