# Meta I Anapolon

The maximum tolerated dose of Anapolon is 100 mg per day. Firstly, because it has been proven that a greater increase in dosage does not lead to the best results. Secondly, the risk of side effects increases. The optimal dose for beginners is 50 mg per day.

There are studies involving Oxymetholone use where participants were using 50 mg and 100 mg daily to 31 elderly men for 12 weeks. The study proven that it offered pretty significant increases in liver enzymes (transaminases AST and ALT) only in the patients that were using 100 mg as they didn't really got big chances for the patients using 50 mg.
