Consultez les horaires et trouvez facilement le billet de train adapté à votre voyage. Achetez votre billet en ligne et évitez les files d'attente ! Ipamorelin is a penta-peptide hormone, a growth hormone secretagogue and a small molecule ghrelin mimetic. Ipamorelin belongs to the most recent generation of GHRPs and causes significant release of growth hormone. Similar to GHRP-6 and GHRP-2, it suppresses somatostatin and increases the stimulation and release of Growth Hormone (GH) from the anterior pituitary. It acts very similarly to GHRP-6 without the increase in appetite. [click here!](#)
