For bulking: 500 mg of Sustanon per week and 300 mg of Trenbolone per week (12 weeks) and 50 mg of stanozolol per day (8 weeks) and 0.5 mg of anastrozole every three days (12 weeks). One week after the end of the cycle, it is necessary to do post cycle therapy, and take 100 mg of Clomid per day for three weeks. Mix it with 0.5 ml of Masteron Enanthate. According to anecdotal reviews, this seems to reduce the PIP by 50% at least. Here's what to expect from the Sustanon 250 cycle. Assuming that you are starting off with 500mg/week of Sustanon 250, you will be injecting twice a week. Here's what you can expect from the cycle in the next few days.

and said ????@imshoaibakhtar told him about SALMAN BHAIJAAN how much he is really down?? to earth person, he loves his family ?and respect his parents and also he doing charity???? but he don't want to reveal anything. Really we r proud to say I'm ur ??????jabra FAN @hunk\_\_imran this post

Sustanon 250 is a popular testosterone blend (mixture) and is without question the most popular and well known blend ever made. Manufactured by Organon, the idea behind Sustanon 250 was to provide the best of small (short) and large (long) ester testosterones in a single compound.

Sustanon is testosterone mixture which is without doubt the most popular of its kind. It was originally formed to a produce a testosterone compound consisting of different sized esters which would lead to instant and long lasting benefits it terms of testosterone.
