50 Tabs of 25mg Oxandrolone Anavar or Oxandrolone was first developed in 1964 by Searle Laboratories to combat and treat conditions like rapid weight loss and muscle wasting like many other anabolic steroids. Compared to other anabolic steroids, Anavar is considered to be the safest for use for both males and females and its used quite extensively by athletes.

Beginner Anavar Cycle. A beginner can safely run an 8 week cycle of Anavar (the maximum recommended length) at a dosage of 30-50mg daily. Even as a beginner it's always beneficial and advisable to combine a testosterone compound for the entire duration of the cycle, as well as for several weeks following the end of Anavar use to avoid the adverse effects of low testosterone. read this
