## Is 20 mg of Anavar a day enough?

Each increase in dosage increases the risk of virilization. Supplementing with 20mg per **day**, or more than 20mg per day, almost guarantees some level of virilization. Women will never need to take more than 10mg per day. The 6-8 week Anavar cycle is generally safe.

## What happens when you stop taking Anavar?

Do not increase your dose or use this drug more often or for longer than prescribed. When an anabolic steroid is misused or abused, you may have **withdrawal symptoms (such as depression, irritability, tiredness)** when you suddenly stop using the drug. These symptoms may last from weeks to months.

## What happens if you miss a day of Anavar?

If you miss a **dose of oxandrolone take it as soon as you remember**. If it is very close to the time you are expected to take the next dose, skip the missed one and continue with your regular schedule. Don't take two doses at once.

## Will steroids ever be legal in the US?

The short answer is **no**. Even though 80% of American bodybuilders still use anabolic steroids, they are

illegal in the United States without a prescription and have been since the Anabolic Steroids Control Act of 1990.

## Is CrazyBulk a legit website?

CrazyBulk USA supplements **are 100% legal and safe**. There are no illicit steroids in these goods. You get all of the advantages of real steroids while being safe and legal. As a result, CrazyBulk USA is the most effective steroid alternative.

## What time of day should you take Anavar?

Swallow your tablet **in the morning**, eat well and train like a beast. If you are taking over 10mg per day, I recommend splitting your dosage, as Anavar has a half-life of 8-12 hours.

## Should you take Anavar once or twice a day?

Anavar is to be taken **twice a day** with the above-recommended dosage broken up into two instances: in the morning and the evening along with food.

## What can I take to protect my liver from steroids?

### The Best Cycle Support Supplement

- Milk Thistle (Marian thistle) This plant extract is known to help with protecting your liver and lower blood sugar(2)(3).
- NAC (N-Acetyl-Cysteine) This amino acid works as a powerful antioxidant which can help with detoxification of the kidney and liver(4).

## How long do Anavar side effects last?

Many times people also experience withdrawal symptoms with Anavar which can last anywhere from **just a few weeks to months at a time**. One of the more commonly known symptoms of steroid abuse is aggression.
